IMPORTANT TO MILL OWNERS.

IMPORTANT TO MILL OWNERS.

Having received my Letters Patent for an improved method of Dressing Millstones, I am now prepared to furnish Machines to Millers and Mill Owners.

I will guaranty that any practical Miller can, at the first trial, if he will try, dress a pair of Burrs in half the time that he can do it with the common hand-pick now in use; and that the work done by the machine shall be better than can be done by nine out of ten of the best handlers of the common pick. The machine makes a clean, clear, thread-like mark, and does not brittle up nor break the face of the stone. It can be controlled at the will of the operator, instantly to make the most delicate lick or one with the force of ten pounds, if required. Every practical Miller knows that a stone is only required to be dressed where the proof staff indicates. This can be done by the machine, no matter how brittle or tender, or how close and hard the face or place on the stone may be, the operator can face it down, or touch as lightly as he pleases. There are three very good reasons for trying them:

First. With fair use, the machine will last twenty years. Second. It is complete within itself, and will not take five minutes, nor cost five cents to try it. Third. I give with the machine thirty tools, or pick-blades, which will last any two pair of stones, to be dressed twice a week, for two years, and then any good smith can replace them for twenty-five cents apiece.

I have used this mechine in my mill for nearly

O'Fallon Mills, St. Louis, Missouri.

St. Louis, Missouri, April 25, 1854.

This is to certify that I have been employed in the O Fallon Mills for the last ten months, as Miller, during which time I have had a fair opportunity of testing Mr. J. G. Shands's Patent Milstone Dresser. I know, by experience with the machine, that there is not only economy in time and tools, but the stone may be kept in perfect face, and a fine, even, sharp, grinding dress put on in less time and labor than with hand-picks; besides, it takes very little practice to handle the machine, and any one who has experience enough in milling to know what is required to sharpen the face of a stone for grinding, can very seon learn to do a good job with the machine.

The number and formidable character of dis The number and formidable character of discases of the Liver have long challenged the attention of medical men. Some of these diseases, classed under the general term of Consumption, have been supposed incurable, and the unmappy patient allowed to die, without medical science to offer him a hope of recovery. Happily this can no longer be the case. A remedy has been found which will our complaints, of whatever character, arising from derangement of the Liver. The Pills discovered by Dr. McLane, of Virginia, act directly on the Liver; and by correct ing its operation, and purifying it from disease, cuts off and extirpates the complaints which have their origin in the diseases of this organ. Remedies hitherto proposed for liver complaints have failed to operate upon the seat of the disease; but Dr. Mcane's Pills make themselves felt upon the action of the Liver, and, by cleansing the fountain, dry up the pure streams of disease, which thence derive their

REMOVAL!

HENRY JANNEY'S Boot and Shoe Store and Manufactory, for the last ten years located on 8th street, near the General Post Office, was removed to Pennsylvania Avenue, between Browns' Hotel and 7th street, where the proprietor has spared no pains or expense in fitting up an establishment commensurate with the great increase in the business of the house.

The subscriber tenders his most cordial and grateful acknowledgments to his friends and patrons for their long-continued favors, and will be pleased to meet them in his new house.

I have a very well-assorted stock of Beots and Shoes, of French, New York, Eastern, and my own make, embracing every style and variety, to which I invite the attention of members of Congress, and citizens generally.

To those persons who may visit Washington, and are in want of a boot that cannot be excelled, either in quality or workmanship, we would call their attention to the card of Henry Janney, to be found under the head of "Washington." A handsome and neatly-made boot is not at all times a source of pleasure to the wearer, but often one of extreme torture; this is caused by the bungling manner in which the boot is fitted to the foot. Mr. Janney has devoted much of his time in studying the construction of the human is fitted to the foot. Mr. Janney has devoted mach of his time in studying the construction of the human foot, in order to ascertain how a boot should be cut and fitted, that will be perfectly easy to all parts of the foot. In this he has succeeded, so that it matters not what may be the shape of, or the number of corns on the foot, his boot is perfectly easy. Thus he has combined beauty with comfort.

NOTICES OF THE PRESS.

The author of this book is the editor of the Albany State Register, and among all our brother editors we know of none of such rare fancy and humor in depicting country life. Isaac Walton would have been delighted to read such a book, and Christopher North would be happy in inhaling such good humored sketches of country sports. We have rarely read anything more instinct of life and fun than this book, or which is more appropriate to the season of summer and rural life—N. Y. Express.

Reader, you have a rich treat before you, in the pages of this volume, which comes before you with interminable changes, magnificent groves, whose tall trees have withstood the storms of a thousand years: luxuriant gardens, fertile meadows, quiet lakes and running brooks, hills, valleys, and mountains—a multitude of attractions to inspire new, enlarged, fresh thoughts, in the mind that is wearied with the dull routine of our city life and dusty streets.—Philadelphia Courier.

Bastman's Infallible Sick Headache Remedy.

THIS preparation, by E. P. EASTMAN, M. D., of Lynn, Mass., has been used in private practice for the last four years, with the greatest success. A radical cure has been effected in every instance where the directions have been strictly followed and persevered in. It is now given to the public with the full confidence that it will do all that is claimed for it, and prove itself, upon fair trial, an infullible Sick Heudsche Kennedy.

It is safe and pleasant to the taste, it brings immediate relief, and all who test its curative virtues rejoice in the removal of pain, and marvel at its power in allevinting so general, and often so fatal, a scourge The following is from D. C. Baker, Esq., Mayor o. Lynn, and President of the Howard Banking Company, Boston:

Dr. E. P. Eastman.

Dean Sin: A member of my family—a doughter, ten years of age—was afflicted with the sick headache, and we tried various remedies without success. When, however, you administered to her your "Headache Powders," we found them to be very beneficial, and, in fact, restored her to health.

I should, without hesitation, recommend them to those afflicted; and I beg to assure you, that I fully appreciate their value.

Respectfully yours,

THE CONFLICT OF AGES!

BY DR. EDWARD BEECHER. This Remarkable Work has reached its Fifth Edition, in the brief space of Four Months! A success unprecedented in Theological Pub-

A success unprecedented in Tacological Publications!

An impression has already been produced by this masterly treatise, the most profound, wide reaching, and permanent.

It is perfectly manifest to all competent observers, that we are upon the eve of a theological discussion, the most comprehensive, radical, and portentous, the world has ever seen. To this discussion this book leads the way, with a momentum irresistible. There is not a question in Theology which is not destined to come up for a new and therough settlement in the light of this final development.

All those who have Theological doubts and difficulties should examine the solution this work affords.

Those who have no doubts, but who wish to study the history of opinions in the past, and to keep pace with the developments of opinion in the future, will grisvously orr if they neglect to make themselves familiar with this book. It contains the seeds of the thinkings and debatings of the next hundred years.

The reception of this work by the The logical press of the country, has been significant. Equally declining to accept his conclusion, they do it on opposite and contradictory grounds. One half of the Theological press endonses the major premise of the Theological press endorses the major premise of the argument, and denies the minor. The other half endorses the minor, and denies the major. And as they are probably both right in their positive element, and wrong in their negative, the work has received a Virtual Endorsement of the most powerful kind.

As regards the ability of the work, and its claims on the attention of all, the following extracts may suffice:

suffice:
From The Princeton Repertory—Old School Orthodox.
It is characterized by great ability, by an earnest spirit, by frankness, candor, and courtesy. It has a special interest for us. We hall it as an ally. The author shuts his readers up to the choice between Orthodoxy and the doctrine of Pre-Existence.

From the Universalist Quarterly and General Review, Jan., 1854.

We have the novel spectacle of a man clinging with a masterly grasp to all the fundamentals of Orthodoxy, \* \* yet dealing it a blow beneath which it reels.

It would be difficult to find within the limits of a hundred pages any treatise or essay that can compare in importance with this analysis (B. iv) of Orthodox doctrices. Dr. Beecher has struck upon the which it reels.

"THE WEST HAS NO LIFERATURE!"

ORIGINAL WESTERN LITERATURE. "The West has no literature," was remarked by a prominent speaker in a public assembly, not a long time since. The West has a literature—a literature of her own—fresh, bold, vigorous, not beautiful—net refined into stupidity, not degenerated into obscenity—but looming up like her own mountais, fertile as her rich roil, attractive as her blooming prairies. It has been the object of the Genius to gather in the choicest productions of this literature, and to send them forth again, to encourage, to please, and to inchoicest productions of this literature, and to send them forth again, to encourage, to please, and to instruct. It is not surprising that the public have regarded this object with extraordinary favor—a favor which is avidenced by the remarkable success of the Genius of the West. It has elicited the attention and admiration of cultivated minds in all parts of the country. From South Carolina, from New England, from Oregon, from every quarter where it has become known, there come eager calls for the Genius, accompanied with words of such enthusiastic commendation, as may well excite in the editors, as well as contributors, feelings of pride and pleasure.

On the heels of this success, Mr. Durnam, the projector of this enterprise, is enabled to announce, for
